MEMORANDUM FOR: Assistant Director,
Office of Special Activities

SUBJECT: Distribution of Cable Traffic

REFERENCE: [] (IN 53586)

25X1A

1. I have repeatedly objected to direct distribution of traffic from [] to other organizations including AFIGO-S. The referenced message is typical of the request for increased capability at [] and we find ourselves discussing A-12 operations with AFCS at Scott Field, with Captain Jones in the NRO/AFIGO-S communications complex, and with AFIGO-S.

25X1A

2. While I highly concur with the requirement and assure you that all necessary action will be taken with AFIGO-S to solve the problem, I feel I must advise you that all of the factors contained in the referenced message was known at the time of installation and that I was overruled when insisting on an adequate GCA as opposed to the quad radar presently installed.

3. I feel that the "need to know" for AFCS and the NRO communicator is very questionable when it pertains to A-12 operations. If you concur, I recommend that action be taken above D/FA level to control the distribution of traffic from [].
